

## Focus Ester TMP Trioleate

### Product Description

Focus Ester TMP Trioleate is a biodegradable replacement for petroleum products. It has a high smoke point and is used as a lubricant in the textile and metalworking industries and as an emollient for cosmetic applications.

### Typical Properties

Feature	Data
Appearance	Clear light amber liquid
Color (Gardner)	4
Smoke point	180C
Flash point	280C
Specific gravity @ 25C	0.915
Acid value	4
Iodine value	110
Solubility in water	Not Soluble
Viscosity (cst) @ 40C	46
Saponification value	175

### Packaging

Packaging	Description	Net Wt.
Drums	55 gallon non-returnable	420 Lbs
Totes	275 gallon non-returnable	2,105 Lbs

### Registration

USA	TSCA
Canada	DSL
Europe	EINECS
