

Focus RP 15

Water-Soluble Corrosion Inhibitor

Product Description

Focus RP 15 is a water-soluble, synthetic corrosion inhibitor designed for use on cast iron and steel. It does not affect aluminum alloys or other non-ferrous metals.

Applications

Focus RP 15 provides temporary rust protection. Upon evaporation of water, it leaves a thin, non-tacky film that is easily removed by rinsing with water. Suggested treat levels are 0.2% to 0.4% in end-use applications with a pH 8.0 or higher.

Benefits

- Boron-free
- Does not contain monoethanolamine, diethanolamine or triethanolamine
- Non-foaming
- Burns clean in high temperature operations

Typical Properties

Feature	Data
Appearance	Clear amber liquid
Specific gravity @ 25C	1.053
Solubility in water	Complete
1% pH in DI water	9.1
Color (Gardner)	5.0
Acid number (mg KOH/g)	164

Packaging

Packaging	Description	Net Wt.
Drums	55 gallon non-returnable	486 lbs
Totes	275 gallon non-returnable	2,430 lbs

Registration

USA	Yes
Canada	Yes
Europe	Unknown
